

## Friday, July 15th 2022: Tour of Landau

On the last day of our program, we will take a walking tour in the city center of Landau to explore the city in which the conference takes place. Landau is a university town and has a long history. From 1680 onwards, Landau belonged to France, like all of Alsace, until Landau was returned to the Kingdom of Bavaria in 1815. We are going to get insight into the city's history, its residents and its most distinctive buildings.
